Yice Xu

Full Stack Developer | React Native · TypeScript · PHP/Laravel

Novo Hamburgo, RS, Brazil | +55 (11) 98350-8433 | yicexu@gmail.com | **yicexu.com** | linkedin.com/in/yice-xu

PROFILE

Full Stack Developer and Computer Science student building mobile apps (React Native/TypeScript) and ERP features (PHP/Laravel) for the consortium market, including payment integrations with Santander's Pix and boleto APIs. Background in Cypress end-to-end test automation. Native in Portuguese and Mandarin Chinese.

EXPERIENCE

Grupo Wolf 360 — Full Stack Developer

Aug 2025 – Present

São Leopoldo, Brazil

- **Payments integration:** Integrated Santander's Pix (QR Code) and boleto APIs into the ERP, covering the full flow from charge creation to reconciliation.
- **Mobile app:** Built the company's mobile app from scratch in React Native and TypeScript, plus the PHP/Laravel REST APIs connecting it to backend services.
- **Consortium simulator:** Developed an interactive financial simulator that lets users forecast results for consortium credit letters.
- **ERP and campaigns:** Implemented ERP modules and campaign platforms supporting business workflows and marketing operations.
- **Legacy refactoring:** Refactored legacy interfaces with Blade, Livewire and Tailwind CSS, and implemented MySQL data integrations.

Testing Company — Full Stack Developer

Mar 2023 – Oct 2024

Novo Hamburgo, Brazil

- **Client delivery:** Delivered a functional Piccadilly franchise web page in 7 days using PHP/Laravel, with positive client feedback.
- **E2E test automation:** Built Cypress end-to-end test suites for enterprise clients to validate critical user journeys, catch UI regressions and reduce manual testing effort.

RESEARCH

Undergraduate Thesis — Generative AI and Developer Code Expertise

2026 – in progress

Universidade Feevale

- Studies how reliance on AI tools relates to computing students' comprehension of AI-generated code, combining a student survey with repository mining (Python, PyDriller). Methodology approved by the university ethics committee; data collection underway.

SKILLS

Mobile & Frontend: React Native, React, TypeScript, Tailwind CSS, Blade, Livewire
Backend & Data: PHP, Laravel, REST APIs, MySQL, payment API integration (Pix, boleto)
Testing & Delivery: Cypress, Selenium, Git, CI/CD
AI: OpenAI API, LLM integration, Claude Code, GitHub Copilot

EDUCATION

Universidade Feevale — B.Sc. Computer Science 2022 – Dec 2026 (expected)

Universidade Feevale — Technical Degree in Internet Computing 2020 – 2022

COURSES

SAP Business Technology Platform Bootcamp — SAP, 2025

LANGUAGES

Portuguese and Mandarin Chinese: Native | English: Professional working proficiency
